

Getting into Dev23

Once you have access to Fusion, you should see the **Dev23** environment in the **Deployments** section.

Just open it, then click **Fusion**.

Signing in

Copy the password somewhere handy first.

Then open a new tab and go to the link Dharanian shared:

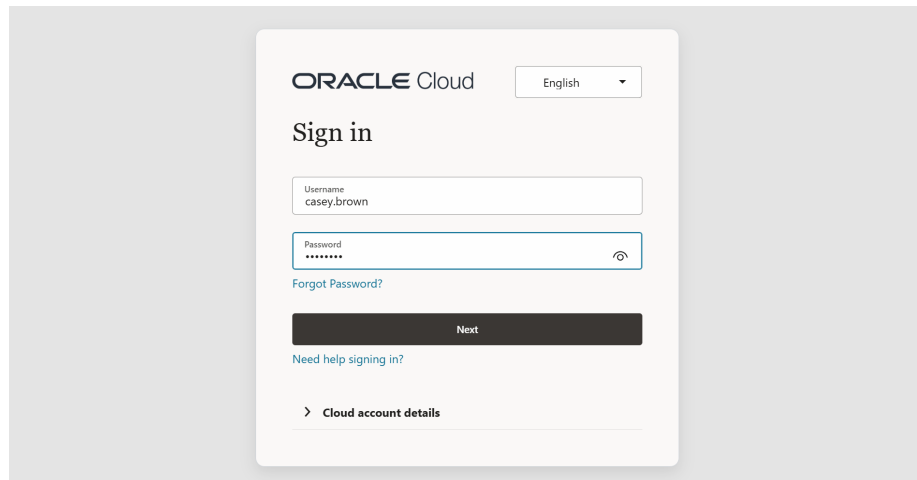

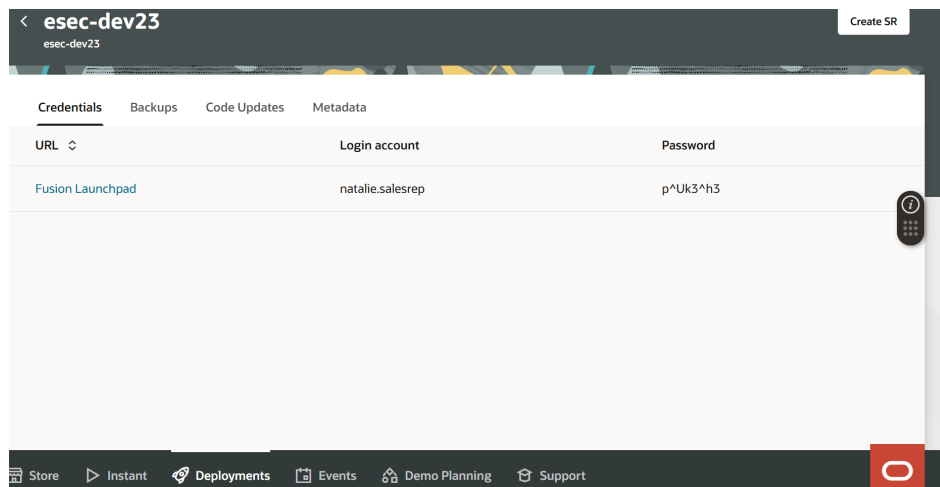

esec-dev23 (<https://fa-esec-dev23-saasfademo1.ds-fa.oraclepdemos.com/>)

Sign in with:

Username: casey.brown

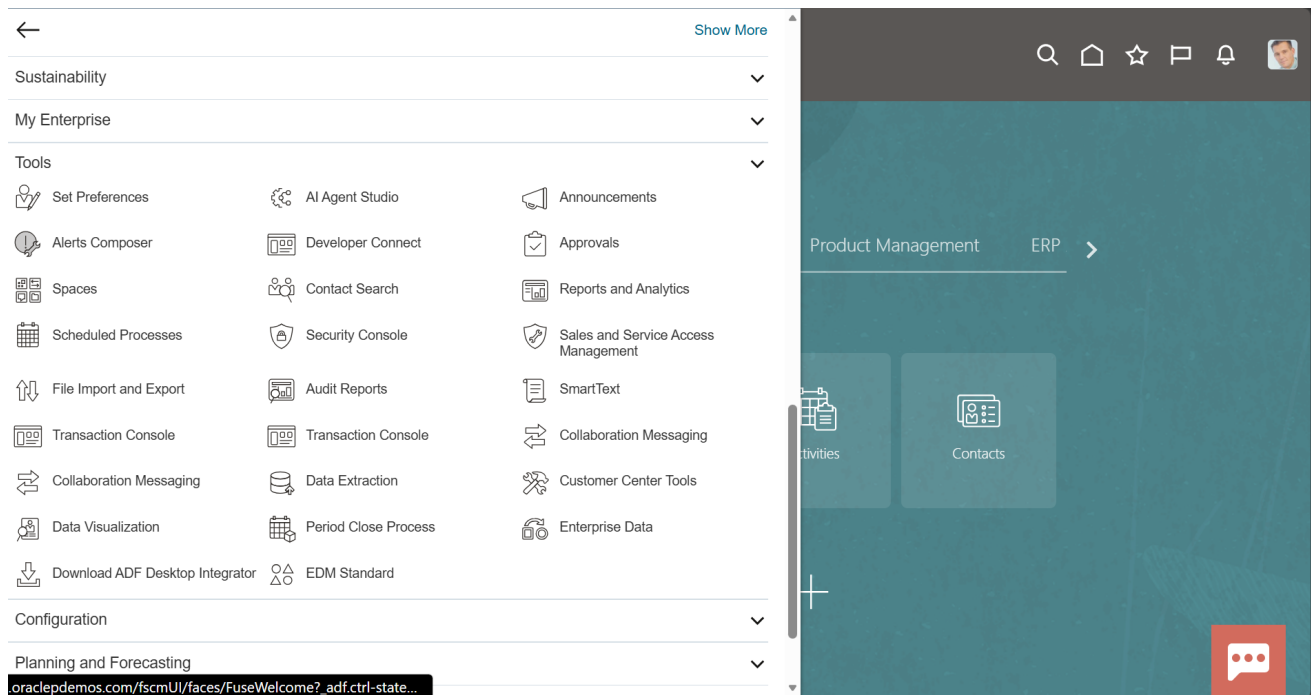

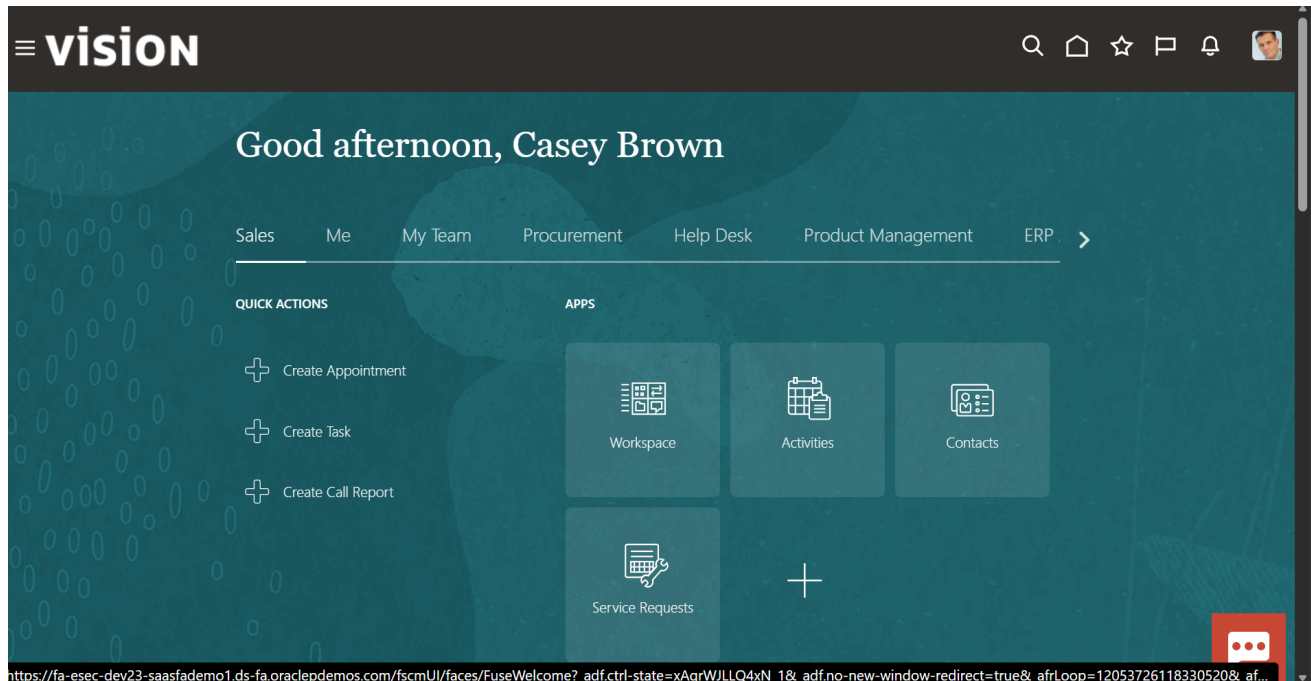

Password: the password you copied earlier

That should get you into the Dev23 environment.

What you should see next

After signing in, you should land in the Fusion environment. The screenshots below show the expected screens.

You're all set

If your screen looks like this, you're in. Feel free to ping the group if anything looks different or you get stuck.
